Get seamless application integration with Microsoft Dynamics NAV.

More than ever, it's imperative that an organization has the capability to integrate with one of its largest software investments, the Enterprise Resource Planner (ERP). Now, with Fusion NAV, communicating with Microsoft Dynamics NAV just got easier.

With years of experience in Microsoft Dynamics NAV implementations and custom software development, Western Computer built Fusion NAV with performance, security, scalability, extensibility and performance as integral features. With Fusion NAV installed, an organization can begin to take advantage of the wealth of comprehensive integration features available with Microsoft Dynamics NAV.

A new level of operational functionality.

Fusion NAV Enterprise Gateway is the most robust and comprehensive solution on the market for integrating Microsoft Dynamics NAV with disparate systems inside-and-out of an organization. Fusion NAV Gateway leverages Dynamics NAV Application Server, Message Queuing and web services to provide a Service Orientated Architecture (SOA) that delivers a new level of operational agility. With Fusion NAV, you can integrate these key systems and more:

- Customer Relationship Management (CRM)
- Handheld Applications
- E-Commerce web sites
- Microsoft Office
- In-house applications
- Vendor and partner B2B
- Third party services including credit card processing

Use one gateway for everything.

The most important factor about using the Fusion NAV Enterprise Gateway is that it provides a single, robust and secure doorway into the back-end ERP system. It's no longer necessary to have numerous and complex integration solutions when one gateway can accommodate everything.

To see what a world class Fusion NAV solution from Western Computer can do for your company, schedule a free consultation today.

about western computer

Delivering world class solutions that help businesses grow for over 20 years.

Western Computer has been providing clients of every size with turnkey consulting, programming, installation and training on customized applications for ERP, CRM, supply chain management and business intelligence since 1987.

Headquartered in Oxnard, California, we are a Microsoft Gold Certified Partner with a staff of 50, including 15 full-time developers and a cadre of project managers, each with at least five years of experience. Our 160 customers encompass mid-range companies of \$50 million to \$250 million in sales, in the entertainment, manufacturing and distribution channels, as well as narrow vertical markets.

Maximizing the benefits of your IT investment.

Our expertise lies not only in our knowledge of the latest technology available; but most importantly, how we can tailor hardware and software solutions to best meet the needs of your business.

To us this means servicing every need our customer may have to streamline processes, fuel productivity, deliver robust business intelligence, and connect employees, customers and partners across a global marketplace. We give you the most powerful tools available for successful growth and to maximize the benefits of your IT investment.

Understanding your business needs.

Western Computer understands that a successful business demands timely financial reporting, accurate inventory levels, and instant access to receivables, orders and sales history to maximize communication, production and profits. The key to our implementation approach is our understanding of your needs and wants and our "client first" philosophy.
